Raven's Lair

Creating A Sex Positive World
Through Adult Sexual Education and
Erotic BDSM Performance Art

At Raven's Lair, we believe that all adults should have access to adult sexual information that is safe, accurate, and explicit. Good sex is not an activity that we know instinctually, it is an art that needs to be learned and developed.

Edging an orgasm requires building sexual skills mentally, physically, and at an intuitive level. Learning these skills will improve your sexual and love making abilities. In this video, we set the foundation for edging an orgasm.

In today's training, we will cover:

Raising Sexual Energy,
Sexual Fantasy,
A Hot Sexual Experience,
Sensual Talk,
Visual Stimulation,
Tactile / Kinesthetic Stimulation.
Awakening the Kundalini,
Raising Sexual Energy Benefits

Raising Sexual Energy

Utilize the following suggestions to help you raise sexual energy. They include Sexual Fantasy, A Hot Sexual Experience From the Past, Sensual Talk, Visual Stimulation, and Tactile / Kinesthetic Stimulation.

I have provided information for each of the senses. Identify your primary erotic sense and be sure to include your primary sense. You can use other senses as well if you find it helps you become aroused.

Remember to take deep breaths to release tension and enhance relaxation. Perform The Lover's Breath. Breath work helps in both raising sexual energy and helps circulate sexual energy throughout the entire body.

Explore your whole body through erotic touch. Often in our culture, we don't spend enough time with the whole body at a sensual / sexual level. Genital stimulation is best when our sex energy is fully awakened through whole body stimulation.

Sexual Fantasy

Explore one of your sexual fantasies. If you do not have sexual fantasies, there are many erotic short stories that can ignite sexual fantasy. Visualize or tell yourself about every detail that turns you on sexually. The mind is our greatest sex organ. Use your imagination to create a hot sexual fantasy scene.

Fantasy is similar to emotions in that there are no good or bad emotions. It is how we act or react from emotions that is good or bad. For instance, I can either use my anger to strike out at someone or I can channel my anger to motivate myself to create social change.

Like emotions, fantasies are within our inner world. They do not exist in the material world. While we can experience the forbidden, the darker side of sexuality, break taboos, enjoy lighter fantasies and many other sexual fantasies; they are contained within the safety of our mind. Within our mind, there is no good or bad fantasy, as long as it is a fantasy that brings us pleasure.

Each individual utilizes fantasy in different methods. For instance, fantasies can be visualized as images you picture in your mind, be a story you tell yourself, it can be imagined as a tactile experience or felt as an emotional experience. There is no right way or wrong way to fantasize, use the method that works best for you.

A Hot Sexual Experience

Related to fantasy is traveling through our memories of past sexual experiences. Recall a sexual experience that was amazing and brought you to an exceptional orgasm. Remember every detail that made the experience special and visualize it in your mind.

Sensual Talk

Describe what you experience through your other senses out loud that is sexy and erotic. Utilize dirty talk to get yourself even more excited if dirty talk turns you on. Write out a script and make a recording of a hot sex scene. Play the recording as you raise sexual energy.

Visual Stimulation

Mirrors are great as an erotic visual aide. Do a strip tease in front of a mirror. Masturbating in front of a mirror can add a visual element. Erotic art is another great way to bring visual stimulation to your sex play. Photography or video can also add to the visual stimulation. For many people, pornography is a great stimulus.

Tactile / Kinesthetic Stimulation

Dance naked and move your body in ways that feel erotic. Erotic dance is a great way to circulate sexual energy throughout the entire body. Utilize erotic touch and feel all over your body as you raise erotic energy. Touch your erogenous zones.

Awakening the Kundalini

Perform the Lover's Breath to raise sexual energy. Take a deep breath forcing air into your lungs. Hold it for a few moments. As you exhale open your throat and audibly sigh the breath out. The sound should be loud enough to resonate vibrations through your chest.

Gyrate the hips, rocking the pelvic floor forward and back. Pump erotic energy with motion while breathing the Lover's Breath. Include PC muscle squeezes. Coordinate breathing, hip gyrations, and pc muscle squeezes and relax.

The PC muscles are your sex muscles. They are the muscles you use when you stop the flow of urine when you urinate. A simple set of PC Muscle squeezes is to alternate rapidly squeezing and relaxing the muscles. Perform the squeezes for a few minutes as you gyrate your hips, rocking the pelvic floor.

Raise erotic energy through sensual touch and masturbation. I start with outer body stimulation and slowly work into erogenous zones and to the genitals.

Identify the point of no return. Learn how to get close without orgasm. Experience the pleasures of raising sex energy. After all, an orgasm lasts only for a few moments. Raising sex energy can last for hours and brings pleasure through the process.

Action Step 2: Raising Sexual Energy

Raise sex energy, but don't climax. Climax and orgasm can be experienced at another time. Experience raising sex energy and focus on spreading the energy through your body. Complete this exercise for 15 - 30 minutes per day.

Daily Practice

Perform raising sexual energy every day for 30 days. Over this time period, notice how your energy is raised not only erotically, but also for your daily life. I highly recommend you perform this practice at the same time of day, each day.

As you raise erotic energy, explore your entire body. Utilize different pressures ranging from a feather touch to deep tissue massage. Vibrators and sensory toys can also be utilized. Examples of sensory toys include feather duster, hair brush, comb, scarves, and other items that produce sensations on the skin. Be sure to obtain sensory toys that are not used for other purposes.

Use this time to fully explore how your body responds to different sensations, especially sensations that bring erotic pleasure. This is the time to learn about your body, what turns you on sexually, and how you like to be touched. Explore and discover all your erogenous zones.

The benefits include the following:

- Generates a feeling of being connected.
- Elevates one's mood to feel happier.
- Raises our sex energy and our desire for sex.

Raises our ability to be more mindful and fully present in our daily activities.
We become more impassioned with life and life activities.
Releases oxytocin, serotonin, and dopamine which elevates our mood and brings more joy to life.
Brings radiance to our being.
Reduces feelings of being in a slump. I no longer feel like I got out of the wrong side of the bed so to speak.
